How to watch
the art world

It's a common trope that the art world is a place of endless parties and social climbing. But in reality, it's a complex and often frustrating place to navigate. In this guide, we'll explore the best ways to watch the art world, from the most accessible to the most exclusive.

1. Art fairs and galleries: These are the most accessible ways to see art. Art fairs are often held in large, open spaces and feature a wide variety of artists and styles. Galleries, on the other hand, are more exclusive and often feature works by established artists.

2. Museums and galleries: These are the most exclusive ways to see art. Museums and galleries often feature works by established artists and are often held in large, open spaces.

3. Art schools and programs: These are the most exclusive ways to see art. Art schools and programs often feature works by established artists and are often held in large, open spaces.
