

elements

The Elements table is designed in a timeless, linear design characterized by wide, solid table legs that guarantee physical stability and create visual solidity. For the table top, different variations of large or smaller tops with subtly matt surfaces or glossy colours are available:

For a monochrome, tone-on-tone impression, minimalists can choose large, one-piece ceramic tiles that perfectly complement the anthracite-coloured frame in a choice of ten matt grey and natural shades.

For those who prefer a more colourful and lively look, the table top can also be composed individually from five rectangular panels in different colour combinations and geometric arrangements. In addition to the ten matte ceramic colours, high-quality glazed lava stone tiles from Italy in Turquoise, Red, Royal Blue or Gold complete the selection. Each of these Lava stone tiles has been hand-made and is a unique piece of craftsmanship.

Thanks to its minimalist design language, its modern mix of materials and the large selection of stylish neutral and lively colours, Elements table add a stylish look to any outdoor dining room.

Designer:	Povl Eskildsen (DK)
